

ERRATA

Lena Zidén: Life after hip fracture – impact of home rehabilitation and patients' experiences of the recovery process in a short- and long-term perspective.

Sid 31, rad 17: efter disease/abuse/dead (n=16) ska det tillkomma: **wrong diagnose (n=2)**

Sid 34, rad 1: efter significant differences ska det tillkomma: **except** for FIM locomotion

Sid 50, Tabell 7a: I de tre sista kolumnerna under Median change pre-fracture – follow up, one month, har det blivit fel på tre ställen:

- One month FIM total score ska vara **CC -13.5** i stället för 3.5
- One month IAM total score , står nu CC 5.0 (19, 30) HR 1.0 (-20, 22) $p < 0.001$, ska vara **HR -14.5 (-47, 13) och CC -18.0 (-43, 0), NS**
- IAM domestic ska vara **HR -2.5** i stället för 2.5

Sid 61, rad 17: ska vara: balance, mobility and leg strength more **than** a programme with written information only

Sid 66, rad 4: analyzed by two people separately, ska vara: analyzed by **three** people separately.
