

Errata for

Susceptibility genes in conformational diseases

PhD thesis

by

MALIN VON OTTER

Ordered by appearance in the text

Page	Line	Change	Should read
Spikblad			
1	13	Change “affects” for “may affect”	... variability may affect tau...
1	14	Remove “The”	International Journal...
1	21-22	Change “disorders” for “diseases”	... three conformational diseases .
Thesis			
v	30	Insert “oxidative stress” between “II” and “response”	... phase II oxidative stress response.
vii	6-7	Change “affects” for “may affect”	... variability may affect tau...
	7-8	Remove “The”	International Journal...
	29-30	Change “progress” for “progression”	... disease progression but not risk...
viii	21	Capitalize the “M” in maximization	Expectation- M aximization
	34	Change “chains (proteins)” for “chain (protein)”	Kinesin heavy chain (protein)
	35	Change “chains (proteins)” for “chain (protein)”	Kinesin light chain (protein)
12	21	Change “SNPs” for “SNP”	... sequence of SNP alleles...
18	26	Bold the word “Sporadic ⁵ ” in column 1	Sporadic⁵
19	22	Insert a space after “α8”	... α8 (Connexin 50)
20	Fig. 1	Change “Imaired” for “impaired” in figure	Impaired transport
31	29	Change “X2” for “X ² ”	... with X² -statistics ...
43	5	Remove “en”	... variant av den studerade...
46	31	Add “in” between me and your	... including me in your...
47	13	Change “Ragnar” for “Ragnhild”	... Ragnhild och Einar Lundströms minne...
