

Jonathan D. Hughes, MD, is an Assistant Professor of Orthopaedic Surgery at the University of Pittsburgh and team physician for the University of Pittsburgh football team. He specializes in the care of athletes as well as complex knee and shoulder surgery, with a specific focus on shoulder and knee arthroscopy, shoulder arthroplasty, and complex reconstructive and open surgery of the shoulder and knee.

He is a graduate of the University of Texas Health San Antonio Medical School and completed his orthopaedic surgery residency in Orthopaedic Surgery at the Baylor Scott and White Residency Program in Temple, Texas, as well as a Sports Medicine fellowship at the University of Pittsburgh Medical Center. He is an active committee member of AAOS, AOSSM, ASES, ACL Study Group, and ISAKOS.

He has published more than 100 papers, abstracts, and book chapters related to clinical and basic science research on rotatory knee instability, knee meniscus pathology, knee malalignment, shoulder instability, rotator cuff pathology, shoulder arthroplasty, and complex shoulder and knee conditions, and regularly presents his research at international and national meetings. He is actively involved in medical school, residency and fellowship education at the University of Pittsburgh.

He lives with his wife, Jessica, a pediatric orthopaedic surgeon, and two children in Pittsburgh. He is an avid cyclist and runner and has completed numerous marathons, triathlons, and Ironman races across the world. He also enjoys outdoor activities such as hiking, skiing, golfing as well as traveling the world.
